Profile

Front-End Developer with a Degree in Management Information Systems (MIS) specialized in building responsive, dynamic user interfaces with **React.js** and **Next.js**. Known for adaptability, attention to detail, and a proactive, solution-oriented approach, bringing creativity, problem-solving skills, and strong communication abilities to collaborative projects. Skilled in JavaScript, **Tailwind CSS**, and animation libraries like **GSAP** and **Framer Motion**, with experience in real-time functionalities using **Socket.IO**. While experienced in full-stack development, the primary focus remains on front-end, creating seamless, user-centered experiences.

Professional Experience

Freelance Full Stack Developer (Africano Restaurant), Link [🔗](#)

08/2024 – 10/2024

- Integrated **real-time order tracking** and **customer service chat** using **Socket.IO**, enhancing user experience and response time.
- Developed **secure user authentication** and **online payment processing** through **Paymob**, prioritizing data protection and payment security.
- Designed and deployed **admin dashboard** with **Angular** to manage orders, food items, and track sales statistics
- Utilized **Docker** for streamlined deployment and high scalability across environments, ensuring efficient application scaling and stability.
- **Tech stack:** React, NestJS, MongoDB, Socket.IO, Paymob, Angular.

Internships

Full Stack Track (MEARN),

intensive code camp: Information Technology Institute (ITI)

05/2024 – 10/2024

Minya, Egypt

- Completed an **intensive full-stack development training** focused on both **frontend** (React, Angular, Next.js, JavaScript) and **backend** technologies (Node.js, Express, NestJS, MongoDB).
- Developed multiple web applications leveraging these technologies, gaining hands-on experience in building and deploying functional, responsive web solutions.
- Successfully applied skills in a **graduation project**; Link [🔗](#)

Web master Internship Front-end Training

09/2024 – 11/2024

Education

Sadat Academy for Management Sciences,

A Bachelor's degree in Management Information Systems (MIS) Grade: B+

10/2018 – 07/2022
